

Name: Pushkar Arun Waykole

Software Test Engineer

Email: pushkarwaykole18@gmail.com

Phone: 7219124803

OBJECTIVE

Looking for an innovative and challenging software development and testing environment, which can fully utilize my capabilities and to be dynamic software professional working systematically, building good logics to be globally competitive following the perfect principle of time and quality techniques

SUMMARY

Software Test Engineer with 1+ years of experience technology majorly involved in all phases of **Manual and Automation Testing**. Developed **Test cases, Test plans, test scenarios ,designing Test procedures and creating the Bug report** and **documentation** based on business,technical and functional requirements .Experienced in identifying gaps in current processes and tools and suggesting new ways to improve them and Enjoy working in a fast-paced dynamic environment. Implementing standards ensuring clients requirements accurately executing and monitoring various processes.

TECHNICAL SKILLS

Testing And Defect Tracking Tool	: Jira
Database	: Oracle DB
Web services	: Postman
Programming	: JAVA, SQL
Software Methodology	: Agile
Automation Testing Tool	: Selenium webdriver with Java .
Software Testing Skills	: Manual Testing, Automation Testing, Sanity Testing,Regression Testing, Re-Testing, Java, Object, Oops Concept, Selenium WebDriver, Agile, API (Postman), SQL, JIRA, TestNG, POM, Maven.

WORK EXPERIENCE

Software Test Engineer
HCL Technology ltd
June2021 – Present

❖ Overall 1.3 years of experience in **Manual Testing, Functional Testing, API Testing, Automation**

Testing, Database Testing(Oracle DB).

- ❖ Involving in **functional testing, black box testing, Regression testing, Sanity testing, Re-Testing.**
- ❖ Coordinating and communicating with BA team for better understanding of functional **requirements for developing quality test cases.**
- ❖ **Evaluated, troubleshot and tested the software repeatedly in order to detect all errors and bugs** and recommend bug fixes.
- ❖ Experience in **Agile (Scrum) Methodology.**
- ❖ Developing **test strategies, test plans, and test cases and test scenarios** for software development efforts and SQA strategies using agile testing methodology.
- ❖ Involving in the design and implementation of enhancements and customizations.
- ❖ **Executing the test cases and documenting the results, reporting the defects and tracking the status.**
- ❖ Have good hands-on **functional testing, in depth knowledge of QA processes, strong testing fundamentals and Test cases preparation.**
- ❖ familiar with **Automation framework implementation** according to project structure.
- ❖ Must be able to use all web methods like GET, PUT, POST, DELETE, etc
- ❖ **Validate feedback, response time, and error code**
- ❖ Strong in **Testing methodology, test framework design** experience.
- ❖ Understanding of **QA methodologies, life cycle and processes.**
- ❖ Good communication skills and able to handle the projects independently.
- ❖ Good Experience in **JAVA, OOPS Concept, Collections, Exceptions Handling, String, POM, TestNG Annotations, Assertions.**
- ❖ Experience in identifying web elements using **Xpath**, good understanding of **Dynamic Xpath and iframe.**
- ❖ Knowledge of handling **Synchronisation (Implicit ,Explicit and fluent).** Knowledge of handling **Mouse over actions, Popups and Lists box.**
- ❖ Partnered with the Operations Project Managers to review testing plans, testing progress, results, and next steps.
- ❖ Prepared **Traceability matrix** to map use case and Test Case.
- ❖ Performed other duties as deemed relevant, based on experience.
- ❖ Reviewed the technical documentation and maintained the knowledge about software releases.
- ❖ knowledge of Java Build tools like **Maven** DEVOPs tool s like **Jenkins.**
- ❖ Develop **Automation scripts** for a given set of manual test suites using the existing automation framework.
- ❖ **Identify, Record and Track defects.**
- ❖ Generate Test Data and execute **Functional and Regression Testing**
- ❖ Understand the functionality being developed and create comprehensive and well-structured test specifications and use cases that will exercise the functionality.
- ❖ Gained a strong understanding of the **SDLC, STLC**

- ❖ Preparation of test cases with Respect to Business Requirements, Preparation of Test Plans.

PROJECT SUMMARY

PROJECT I

PROJECT TITLE : Forex and CFD Trading System

DOMAIN : Investment Banking

CLIENT : Alpari, Mauritius

About the client

Alpari is one of largest forex brands around, and at Alpari International we work hard to make sure our clients make the best trading and investment decisions. Our broad range of services enables you to get the best guidance, advice and resources to build a richer future. With Alpari International, you have everything you need to start trading forex, metals, crypto currencies and commodity futures CFDs. Benefit from trading tools, interbank liquidity, advanced trading platforms and financial news.

Roles

- ❖ Responsible for test plan design and test case development by SRS. Implement test plan, tracking default, and complete test report.
- ❖ Documents test results, manage, and maintain defect and test case databases to assist in the continuous improvement and modification of software.
- ❖ Responsible for providing requirements and **specifications** for the **automation of test cases**.
- ❖ Responsible for Automation Test and manual test, submit test report.
- ❖ Good communication skills. Ability to independently analyze business requirements, participated in requirements **review and refine test points**.
- ❖ Automated functional tests whenever required
- ❖ Manual testing, focus on utilizing expertise in business knowledge and **system functionality** via exploratory testing in order to find defects outside of the main use cases.
- ❖ Map business and technical requirements into **test cases and/or test scripts**
- ❖ Data analysis, data verification, and problem-solving abilities.
- ❖ Reporting team/project metrics.
- ❖ Experience to Comfortably run and read automated test scripts, prioritization of use cases to be scripted, contribute to code reviews, write medium-high complexity test scripts independently.
- ❖ Designing **POM Classes** and **Test Classes**.
- ❖ Validation of Expected output vs Actual Output in respective logs files using **UNIX**.

EDUCATION

- ❖ Bachelor of Engineering in 2021 From Pune University with First Class.

PERSONAL DETAILS

Name : Pushkar arun waykole
Marital Status : Unmarried
DOB : 18-08-1998
Current Address : Nano Homes, Ravet, Pune, 411044.
Permanent Address : Samarth colony, gulmohar road, savedi, ahmednagar, 414003.
Phone : +91 7219124803

DECLARATION:

I hereby confirm that the facts stated in this application are true to the best of my knowledge.
